NOTIFICATION

COMEDK UGET – 2023 FOR ENGINEERING COURSES

COMEDK vide its notification dtd. 20.01.2023 has notified 28th May 2023 as the date for conduct of UGET-2023 which will happen on a single day throughout the Country.

It is learnt that the Council of Architecture has recently announced the dates for conduct of NATA 2023 on three different occasions resulting in one of the test dates (i.e. 28.05.2023) clashing with the date of COMEDK conducting UGET 2023.

It is hereby informed that the test date of COMEDK has been finalised keeping in view the availability of the test centers and there is no other date available. As such and also the fact that COMEDK has notified its date for conduct of UGET 2023 way back in January and finalised all the preparations including the logistics etc., it is not possible for COMEDK to alter the date of conduct of UGET 2023.

Therefore, the candidates are requested to note this position and plan their participation in the NATA 2023 examination accordingly.

The candidates are required to check the website for all the updates. It may be noted that "www.comedk.org" is the only official website of the Consortium and COMEDK is not responsible for information available on other websites / elsewhere.
